Make: Doolittle

Model: Utility

Color: Black

Width: 84" **Length:** 14'

GVWR: 2,990

ADDITIONAL DETAILS: Height: 11.5", Weight: 1,506, Axles: 1, Pull Type: Bumper, Construction: Steel

84"x14' Doolittle Utility Utility

Doolittle 84" x 14' SS Series utility trailer is designed for those who need a wide deck and extra security without the bulk of a tandem axle. Built with a 2,990 lb. GVWR, it's a perfect match for hauling larger zero-turn mowers, side-by-sides, or landscape materials. The standout feature is the 11.5" solid steel sides (often with a 24-inch option), which provide much more containment and protection than a standard open-rail trailer, making it ideal for hauling loose loads like mulch or debris.

Doolittle builds these with a heavy-duty 4" channel wrapped tongue and a 3,500 lb. Dexter EZ-Lube axle, ensuring it's as tough as their larger commercial models. For loading, it features the 5' EZ-Lift mesh ramp gate that folds flat to the deck to reduce wind drag when you're driving empty. You'll also find high-end finishes like the 2-part epoxy primer and polyurethane paint, #1 grade pressure-treated flooring, and flush-mount LED lighting. With the added "EZ Step" on the corners and welded D-rings for easy tie-downs, it's a thoughtfully engineered trailer that makes a long day of hauling a lot more manageable.
