Width: 77" **Length:** 14'

GVWR: 2,990

ADDITIONAL DETAILS: Height: 11.5", Weight: 1,431, Axles: 1, Pull Type: Bumper, Construction: Steel

77"x14' Doolittle Utility Utility

When you need a reliable workhorse that doesn't overcomplicate things, this Doolittle 77" x 14' SS Series utility trailer is a perfect choice. Built with 11.5" solid steel sides, it's designed to keep your cargo secure and contained, whether you're hauling loose landscape materials, equipment, or ATVs. The 14-foot deck is spacious enough for larger loads, while the 2990 GVWR keeps it light enough to be easily maneuvered by most SUVs and half-ton trucks without needing a specialized hitch setup.

Doolittle really focuses on the "little things" that make a big difference in daily use. This model features a 5-foot spring-assist mesh gate that makes loading incredibly easy on your back, and because the gate can fold flat to the deck, you'll save on fuel when pulling it empty. It's built to last with a 2-part epoxy and polyurethane paint finish that holds up much better than standard powder coating. With LED lighting, radial tires, and a pressure-treated pine floor, it's a rugged, professional-grade trailer that's ready to hit the road and stay there for years to follow.
