**Year:** 2026

**Make:** Doolittle

**Model:** Utility

**Color:** Black

**Width:** 77" **Length:** 12'

**GVWR:** 7K

**ADDITIONAL DETAILS:** Weight: 1,280, Axles: 2, Pull Type: Bumper, Construction: Steel

### 77"x12' Doolittle Utility Utility

Doolittle 77" x 12' tandem axle utility trailer is a workhorse built for anyone who needs serious hauling capacity without moving up to a massive deck. With a 7,000 lb. GVWR, it's a significant step up from your standard single-axle setup, giving you the stability of two 3,500 lb. EZ-Lube axles and the safety of electric brakes on both.

Doolittle doesn't cut corners on the build?you're getting a heavy-duty 4" channel wrapped tongue and a 2" x 3" angle main frame that can actually handle a full load. It features their signature EZ-Lift 5' mesh ramp gate that folds flat to the deck to save on fuel when you're empty, and the floor is made of #1 grade pressure-treated wood to stand up to the elements. Small touches like the radial tires, LED lighting, and the "EZ Step" on all four corners make a huge difference when you're out in the field. Whether you're moving a pair of ATVs or a load of landscaping equipment, this 7712 TA is designed to be reliable, easy to load, and tough enough for daily use.
