Model: C25-TCGVJ-ET460-240-12

Color: Black

Width: Length: 28'

GVWR: 6200

ADDITIONAL DETAILS: Weight: 1,600, Axles: 2, Pull Type: Bumper, Construction: Steel

x28' EZ Loader C25-TCGVJ-ET460-240-12 Boat

The EZ Loader C25-TCGVJ-ET4600-240-12 is a heavy-duty, galvanized tandem axle trailer designed specifically for mid-sized boats in the 23 to 24-foot range. Built for long-term durability, its corrosion-resistant galvanized finish makes it an excellent choice for boaters frequenting saltwater environments or harsh coastal conditions. With a solid 4,600 lb. load capacity, this model provides a stable and secure haul, utilizing 12-inch radial tires and a torsion axle suspension system that absorbs road shock much better than traditional springs. Functionality is at the forefront of this design, featuring adjustable bunks and a winch stand that allow for a precise, custom fit to various hull shapes. For safety and convenience, it comes standard with a bright LED lighting package and reliable disc brakes to ensure smooth stopping power. Whether you're navigating a tight boat ramp or hitting the highway for a weekend trip, this trailer offers the peace of mind that comes from EZ Loader's reputation for rugged, "workhorse" reliability.
