**Make:** Doolittle

**Model:** XT841810K

**Color:** Black

**Width:** 84" **Length:** 18'

**GVWR:** 10K

**ADDITIONAL DETAILS:** Weight: 2,600, Axles: 2, Pull Type: Bumper, Construction: Steel

### 84"x18' Doolittle XT841810K Equipment

The Doolittle XT841810K is a heavy-duty workhorse designed for those who need a bit of extra room and serious reliability on the road. With a wide 84" deck and an 18' length (often configured as 16' of flat deck plus a 2' dovetail), this Xtreme series trailer is built to handle everything from skid steers to smaller tractors. Its 10,000 lb. GVWR is supported by tandem 5,200 lb. axles with electric brakes, giving you a substantial payload capacity while ensuring you have plenty of stopping power when fully loaded.

What makes this trailer a favorite for professionals is the attention to detail in its construction. It features a rugged 6" channel wrapped tongue, heavy-duty treadplate fenders with built-in gusset steps for easy deck access, and a pressure-treated wood floor that's double-screwed for extra durability. Loading is made simple with the stand-up equipment ramps and a self-cleaning steel dovetail that provides excellent traction. Finished with a high-quality epoxy primer and polyurethane paint, the XT841810K isn't just built for the "long haul"?it's built to stay looking good and performing reliably through years of demanding use.
