Make: Doolittle

Model: XT822016K

Color: Black

Width: 82" **Length:** 20'

GVWR: 16K

ADDITIONAL DETAILS: Weight: 3,100, Axles: 2, Pull Type: Bumper, Construction: Steel

82"x20' Doolittle XT822016K Equipment

The Doolittle XT822016K is a heavy-duty Xtreme series equipment trailer built for those who need a serious step up in hauling capacity. With its 82" wide by 20' long deck and a formidable 16,000 lb. GVWR, this trailer is engineered to move the big stuff?think heavy excavators, massive skid steers, or full-sized tractors. It gets its strength from two 8,000 lb. axles paired with electric brakes on both, riding on high-capacity 17.5" steel wheels and 16-ply radial tires that are designed to handle maximum payloads over long distances without breaking a sweat.

True to the Doolittle brand, the XT822016K is packed with practical features that make a workday easier. It includes a massive, lockable "Mammoth" toolbox integrated into the tongue for your chains and binders, along with heavy-duty 5' flip-up "Mammoth" ramps that provide a stable, wide platform for loading equipment. The trailer's frame is finished with a two-part epoxy primer and polyurethane paint for superior rust protection, and it features professional touches like lifetime LED lighting, heavy-duty Jeep-style fenders with gusseted steps, and a rub rail with stake pockets for versatile tie-down options. Whether you're on a construction site or the farm, this is a trailer designed for extreme durability and professional-grade performance.
