Make: Doolittle

Model: XT822216K

Color: Black

Width: 82" **Length:** 22'

GVWR: 16K

ADDITIONAL DETAILS: Weight: 3,250, Axles: 2, Pull Type: Bumper, Construction: Steel

82"x22' Doolittle XT822216K Equipment

The Doolittle XT822216K is the heavy-hitter of the Xtreme series, offering that extra deck length and massive capacity needed for the biggest jobs. With an 82" wide by 22' long platform and a substantial 16,000 lb. GVWR, this trailer is purpose-built for hauling long-wheelbase machinery, multiple smaller units, or heavy-duty equipment like full-sized excavators and tractors. To handle that kind of weight, it's equipped with two 8,000 lb. slipper spring axles with electric brakes on both.

Beyond its raw strength, the XT822216K is packed with the premium features that define the Doolittle brand. You'll find the signature "Mammoth" lockable toolbox integrated into the tongue for secure storage, alongside heavy-duty triple-beam spring-assisted ramps that make loading even the heaviest equipment feel effortless. The construction is top-tier, featuring 3" channel crossmembers on 16" centers and a rugged 2-3/8" pipe front bump rail. To ensure it stands up to years of abuse, the entire frame is hand-prepped, acid-washed, and finished with a two-part epoxy primer and polyurethane paint. With lifetime LED lighting and heavy-duty Jeep-style fenders with gusseted steps for easy access, this is a professional-grade tool designed to work as hard as you do.
