**Year:** 2026

**Make:** Doolittle

**Model:** TT77167K

**Color:** Black

**Width:** 77" **Length:** 16'

**GVWR:** 7K

**ADDITIONAL DETAILS:** Weight: 1,770, Axles: 2, Pull Type: Bumper, Construction: Steel

### 77"x16' Doolittle TT77167K Utility

This 77" x 16' Doolittle Premier utility trailer is a workhorse designed for anyone who needs a reliable, heavy-duty tandem axle setup. With a 7,000 lb. GVWR, it's built to handle everything from side-by-sides and ATVs to landscaping equipment and building materials. What really stands out is the "Tube Top" design?using square tubing for the top rail rather than flimsy angle iron?which gives the whole frame a lot more rigidity. It features a 5-foot spring-assisted mesh gate that makes loading and unloading a breeze, and since the gate can lay flat on the deck, you've got more flexibility for longer loads.

Doolittle doesn't cut corners on the finish either; it's prepped with a two-part epoxy primer and finished with a baked-on polyurethane paint that holds up great against the elements. For safety and convenience, you're looking at radial tires for a smoother ride, LED lights that stay bright and reliable, and a triple-channel wrapped tongue for extra strength at the hitch. Details like the EZ Steps on the corners and the pressure-treated pine flooring make it clear this trailer was built with the user in mind. Whether you're hauling for work or play, this 16-footer is a solid, long-term investment that's ready to get the job done.
