**Color:** Black

**Width:** 84" **Length:** 20'

**GVWR:** 7K

**ADDITIONAL DETAILS:** Weight: 2,155, Axles: 2, Pull Type: Bumper, Construction: Steel

### 84"x20' Doolittle TT84207K Utility

The Doolittle 84" x 20" is a heavy-duty, versatile workhorse designed to handle everything from professional landscaping to hauling recreational gear. Measuring 84" wide and 20' long, this tandem-axle trailer features a 7,000 lb. GVWR, supported by two 3,500 lb. axles with electric brakes on at least one axle to ensure safe stopping under load. Built with a rugged 2" pipe-top rail and a triple-channel wrapped tongue, it provides superior structural integrity compared to standard angle-iron frames.

What really sets this model apart are the operator-focused details. It comes standard with a 5' spring-assist mesh gate that can fold flat onto the deck for better fuel economy when towing empty. For durability, Doolittle uses a high-quality two-part epoxy primer and polyurethane paint finish—far tougher than standard powder coating—along with a #1 grade pressure-treated pine floor. You also get premium features like EZ-Lube hubs, radial tires, and a full LED lighting package with integrated "EZ Steps" at the corners for safe and easy access to your cargo. Whether you're moving equipment or materials, the TT84207K offers a professional-grade solution that is built to last.
