Make: Doolittle

Model: XT822214K

Color: Black

Width: 82" **Length:** 22'

GVWR: 14K

ADDITIONAL DETAILS: Weight: 3,250, Axles: 2, Pull Type: Bumper, Construction: Steel

82"x22' Doolittle XT822214K Equipment

The Doolittle XT822214K is a versatile, heavy-duty professional trailer designed for those who need maximum deck space without jumping up to a 16K setup. With an 82" wide by 22' long platform (typically a 20' flat deck plus a 2' cleated dovetail), it offers plenty of room for long-wheelbase equipment or hauling multiple pieces of machinery at once. It's built on tandem 7,000 lb. axles with electric brakes on both, providing a rock-solid 14,000 lb. GVWR that can easily handle heavy skid steers, pavers, or tractors.

What makes this trailer a standout on the job site are the "Xtreme" upgrades Doolittle is known for. It features a lockable "Mammoth" toolbox integrated into the tongue for secure storage and 5' flip-up triple-beam ramps that are spring-assisted to save your back during loading. The construction is incredibly rugged, utilizing 3" channel crossmembers on 16" centers and a wrap-around tongue with built-in steps for easy deck access. Finished with a high-quality two-part epoxy primer and polyurethane paint, and rounded out with 10-ply radial tires and lifetime LED lighting, this trailer is engineered to be a reliable, long-term investment for any serious hauling operation.
