

## 83"x14' Lamar Dump

**\$11,389**

**Stock #:** 11192

**VIN:** 5RVBD142XTP150259

**Category:** Dump

**Cond.:** New

**Year:** 2026

**Make:** Lamar

**Model:** DL831427

**Color:** LAMAR GRAY

**Width:** 83" **Length:** 14'

**GVWR:** 14K

ADDITIONAL DETAILS: Height: 24", Weight: 4,590, Axles: 2, Pull Type: Bumper, Construction: Steel

### 83"x14' Lamar DL831427 Dump

If you're looking for a workhorse that balances heavy-duty capability with day-to-day usability, the Lamar DL831427 is essentially their "goldilocks" low-profile dump trailer. It's an 83-inch wide by 14-foot long unit sitting on two 7,000-lb axles, giving you a solid 14,000-lb GVWR—enough payload capacity (usually around 9,400 lbs) to haul a skid steer or a heavy load of gravel without breaking a sweat.

What really makes this model stand out is the attention to durability; it typically features an ultra-thick 7-gauge steel floor that resists warping much better than standard 10-gauge options, all riding on a sturdy I-beam frame. It's also designed to be user-friendly, coming standard with a low deck height for easier loading, slide-in ramps, and a spreader gate that lets you choose between dumping a pile or spreading material evenly. Whether you are a landscaper or a general contractor, this is the kind of trailer you buy when you want something that can take a beating and still look good pulling up to the job site.
