102"x40' Lamar H8024037 Equipment

Tackle your biggest jobs with this rugged 2026 Lamar H8 Gooseneck Equipment Hauler. This heavy-duty trailer is built to perform, offering a massive 102-inch wide by 40-foot long deck. It's engineered with a stout 21,000 lbs GVWR supported by three 7K EZ-Lube electric brake spring axles. The foundation consists of a strong 8-inch channel frame with 16-inch center-to-center crossmembers and a classic treated yellow pine floor.

This H8 model is designed for maximum utility and easy loading. It features a 4-foot dovetail paired with heavy-duty slide-in ramps and drive-over fenders, allowing you to use every inch of deck space. Key operational features include dual 10K drop-leg jacks for stability, a neck-mount winch plate ready for your equipment, and a large front toolbox for secure storage.

Finished in a durable Lamar Gray powder coat, this trailer is ready to haul. It's equipped with a 30K gooseneck coupler, a full LED package with side turn flashers for visibility, and a rub rail with standard stake pockets for versatile and secure cargo control. It all rides on reliable 235/80 R16 10-ply tires with black wheels.
