**Year:** 2026

**Make:** Lamar

**Model:** H6832227

**Color:** LAMAR GRAY

**Width:** 83" **Length:** 22'

**GVWR:** 14K

ADDITIONAL DETAILS: Axles: 2, Pull Type: Bumper, Construction: Steel

### 83"x22' Lamar H6832227 Equipment

The Lamar Trailer Model H6832227 83x22 14k equipment trailer is a robust tandem-axle equipment hauler built for heavy-duty hauling tasks. With a 14,000 lb GVWR and dual 7,000 lb axles with electric brakes, it provides roughly 10,900 lb of payload capacity, making it ideal for transporting tractors, skid steer, construction machinery and other large equipment. The trailer rides on 235/80R16 radial tires and features a 6" channel steel frame with 16" crossmembers, treated yellow pine decking, and a rugged power-coat finish for corrosion resistance. Standard towing hardware includes an adjustable 2 5/16" coupler, 10,000 lb drop-leg jack, and a wrap-tongue design, while loading is aided by heavy-duty stand up ramps, plus stake pockets, rub rails, and multiple weld-on D-rings for secure tie-downs; all backed by Lamar's build quality and trailer warranty.
