

83"x16' Lamar Dump

\$15,099

Stock #: 11444

VIN: 5RVBD1627TP151687

Category: Dump

Cond.: New

Year: 2026

Make: Lamar

Model: DT831628

Color: LAMAR GRAY

Width: 83" **Length:** 16'

GVWR: 16K

ADDITIONAL DETAILS: Height: 36", Weight: 5,280, Axles: 2, Pull Type: Bumper, Construction: Steel, Features: Slide Out Ramps, Spare Mount

83"x16' Lamar DT831628 Dump

The Lamar DT831628 is essentially the heavy-weight champion of 16-foot dump trailers, built for people who got tired of worrying if their equipment was too heavy for a standard hauler. While it looks like a typical low-profile dump at a glance, that "28" in the model number is the secret sauce—it tells you this unit is upgraded with dual 8,000-lb axles, bumping the total GVWR up to 16,000 lbs.

Because of that extra axle capacity, Lamar builds the rest of the trailer to match: you get a massive 8-inch I-beam frame and a 7-gauge steel floor that is significantly thicker than the industry-standard 10-gauge, meaning it won't warp like a waffle when you drop heavy rocks or concrete into it. Between the ultra-rigid sides, the oversized telescopic hoist for lifting those heavier loads, and the slide-in ramps for loading a skid steer, it's basically a commercial-grade workhorse designed to take a beating day in and day out without complaining.

2 - 8000lb oil bath spring axles w/ electric brakes

Telescopic Lift

Mesh Tarp w/ pull bar
