**Color:** ALUMINUM

**Width:** 62" **Length:** 12'

**GVWR:** 2,990

ADDITIONAL DETAILS: Weight: 680, Axles: 1, Pull Type: Bumper, Construction: Aluminum

### 62"x12' Quality Steel & Aluminum 6212ALSL3.5KSA Utility

The Quality Steel & Aluminum Model 6212ALSL3.5KSA is a versatile, lightweight workhorse designed to bridge the gap between heavy-duty performance and easy towing. Built with an all-aluminum frame, this 62" x 12' utility trailer offers superior corrosion resistance, making it an ideal choice for Minnesota winters or coastal environments where rust is a constant battle. Despite its lightweight construction? tipping the scales at roughly 680 lbs? it features a robust 3,500 lb single axle. While categorized for a 3,000 lb GVWR to keep it user-friendly for a wide range of tow vehicles, it doesn't skimp on strength, offering a payload capacity of over 2,300 lbs for your ATVs, mowers, or construction materials.

What really sets this model apart is the attention to detail in its utility features. It comes standard with a durable pressure-treated wood deck and a reinforced rear ramp gate that makes loading equipment effortless. For safety and convenience, Quality Steel & Aluminum integrated LED lighting, zinc-coated running gear to fight off road grime, and a 2" A-frame coupler. Whether you're a homeowner tackling weekend projects or a contractor looking for a dependable daily trailer, the 6212ALSL provides a professional-grade hauling solution that's built to last.
