ADDITIONAL DETAILS: Weight: 1,905, Axles: 2, Pull Type: Bumper, Construction: Steel

83"x18' Lamar CE831823 Flatbed Car Hauler

The Lamar CE831823 is a rugged, 83" x 18' car hauler that strikes a perfect balance between durability and ease of use. Built on a 5" channel frame with 24" on-center crossmembers, this trailer is designed for a 7,000 lb GVWR, giving you a solid 5,000+ lbs of actual hauling capacity. It features two 3,500 lb EZ-Lube axles with electric brakes on both, so it stops just as reliably as it pulls. The deck is finished with high-quality treated yellow pine, and the 2' dovetail combined with 5' slide-in rear ramps makes for a smooth, low-profile loading angle?ideal for cars, small tractors, or a pair of UTVs.

Small but thoughtful details really set this model apart, like the 2" adjustable Demco cast coupler and the 2k top-wind flip jack that stays out of the way when you're on the move. It comes standard with removable diamond plate teardrop fenders, which are a lifesaver if you need extra clearance for wider loads or low-door vehicles. With a fully sealed cold-weather wiring harness, a complete LED light package, and a durable charcoal or gray powder coat finish, it's a professional-grade setup that's built to handle year-round work while looking great behind your truck.
