**Color:** LAMAR GRAY

**Width:** 83" **Length:** 24'

**GVWR:** 10K

**ADDITIONAL DETAILS:** Weight: 2,750, Axles: 2, Pull Type: Bumper, Construction: Steel

### 83"x24' Lamar CC832425 Flatbed Car Hauler

The Lamar CC832425 is a premium 83" x 24' car hauler that offers the extra length needed for longer vehicles, dual-vehicle setups (like two small ATVs or a side-by-side and a dirt bike), or simply more room for gear. Rated at a 10,000 lb GVWR, it provides a substantial payload capacity of roughly 7,200 lbs, making it a significant step up from standard 7k trailers. It's built on a 5" structural channel frame with a full-wrap tongue, ensuring the trailer stays stiff and tracks straight even when fully loaded.

Loading is straightforward thanks to the 2' steel dovetail and 5' heavy-duty slide-in ramps, which are tucked away under the rear of the deck for easy access. The trailer is equipped with two 5,200 lb EZ-Lube axles and electric brakes, providing plenty of stopping power. You'll also appreciate the professional-grade standard features like the 2-5/16" adjustable Demco cast coupler, a 7k drop-leg jack, and a full-length rub rail with stake pockets for versatile tie-down options. Like all Lamar units, it features a sandblasted frame with a durable powder coat finish and a -65°F arctic wiring harness, so it's built to survive the elements and look good doing it.
