Color: Gray

Width: 72" **Length:** 12'

GVWR: 3.5K

ADDITIONAL DETAILS: Weight: 1,000, Axles: 1, Pull Type: Bumper, Construction: Steel

72"x12' Doolittle LR72123.5K Utility

The Doolittle LR72123.5K is a standout in the Lowrider series, specifically engineered for those who need a low-profile, heavy-duty utility trailer that doesn't mess around. Measuring 72" wide by 12' long, this model features a 3,500 lb. GVWR, making it ideal for hauling everything from zero-turn mowers and ATVs to construction materials. What really sets it apart is the "Lowrider" design, which gives you a much better load angle?perfect if you're tired of scraping the deck when loading lower-clearance equipment.

True to Doolittle's reputation for over-building, it comes standard with a 2-component epoxy primer and polyurethane paint finish that holds up way better than standard powder coating. You'll also appreciate the practical touches like the EZ Steps for quick access to the deck, a spring-assist mesh gate that saves your back, and lifetime LED lighting for reliable visibility. It's a rugged, well-thought-out trailer that's built to work as hard as you do, whether you're heading to the job site or the trailhead.
