**Width:** 60" **Length:** 10'

**GVWR:** 7K

**ADDITIONAL DETAILS:** Height: 18", Weight: 2,345, Axles: 2, Pull Type: Bumper, Construction: Steel

### 60"x10' Lamar DS601023 Dump

Need a dump trailer that's built for the long haul but doesn't feel like you're pulling a house? The Lamar DS601023 is your answer. It's the perfect mix of compact size and serious muscle. We're talking about a 7,000-pound GVWR packed into a nimble 10-foot body, which makes it an absolute dream for homeowners, landscapers, and anyone who needs to get a lot of work done without lugging around a huge rig.

This little powerhouse comes standard with everything you need to hit the ground running. The 18-inch weld-on sides and durable 10-gauge floor are tough enough for daily abuse, and the 7K drop-leg jack means you're not fighting with the trailer when you unhitch. Barn doors and slide-in ramps make it incredibly versatile, whether you're hauling landscaping materials or loading up a small skid steer. Lamar's quality shines through, from the weather-resistant wiring to the durable powder-coat finish, so you know this trailer is ready to work as hard as you do, day in and day out.
