Model: 8212ANSA5K

Color: Black

Width: 82" **Length:** 12'

GVWR: 5200

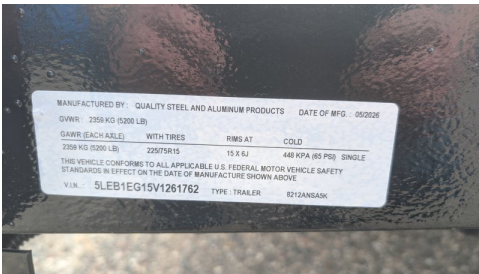

ADDITIONAL DETAILS: Height: 17", Weight: 980, Axles: 1, Pull Type: Bumper, Construction: Steel

82"x12' Quality Steel & Aluminum 8212ANSA5K Utility

This Quality Steel and Aluminum 82" x 12' steel utility trailer is a rugged, heavy-duty workhorse designed for anyone who needs serious hauling capability without jumping up to a massive, cumbersome rig. Built with a tough all-steel frame and finished with a durable, weather-resistant powder coat, it features box tube uprights and a matching top rail that provide excellent structural rigidity and secure tie-down points. With its wider 82-inch deck and a substantial 5,200 lb. GVWR, this single-axle setup gives you a massive payload capacity that easily handles heavier equipment like commercial zero-turn mowers, compact tractors, or fully loaded side-by-sides. Loading is incredibly smooth thanks to the standard rear mesh ramp gate with secure western-style latches, while features like radial tires, a sealed wire harness, and full LED lighting ensure it pulls safely and reliably down the highway day after day.
