Color: Black

Width: 82" **Length:** 14'

GVWR: 5200

ADDITIONAL DETAILS: Height: 17", Weight: 990, Axles: 1, Pull Type: Bumper, Construction: Steel

82"x14' Quality Steel & Aluminum 8214AN5KSA Utility

This Quality Steel and Aluminum 82" x 14' steel utility trailer is the perfect blend of extra deck space and heavy-duty hauling muscle. Built with a rugged, powder-coated steel frame and a solid tube top rail, the 14-foot length gives you that critical extra room to easily fit a large side-by-side with gear, or a commercial zero-turn mower alongside extra equipment. Thanks to its stout 5,200 lb. GVWR on a heavy-duty single axle, you get a massive payload capacity that handles serious weight without the added bulk, tire maintenance, or tracking hassle of a tandem-axle setup. Loading and unloading are a breeze with the durable rear mesh ramp gate, while the radial tires, sealed wiring harness, and bright LED lighting ensure it pulls smoothly and safely whether you're heading to the job site or hitting the trails for the weekend.
