ADDITIONAL DETAILS: Weight: 3,725, Axles: 2, Pull Type: Bumper, Construction: Steel, Wood, Features: Dovetail, Maxx / Mega Ramps, Spare Mount, Spare Tire, Tongue Box

102"x22' Lamar H6022227 Equipment

Built for contractors, farmers, and equipment owners who demand strength and reliability, the Lamar H6022227 is a heavy-duty 14,000 lb GVWR equipment trailer designed to handle tough jobs with confidence. Featuring a rugged 6" channel steel frame, tandem 7,000 lb electric-brake axles, and a spacious 102" x 22' deck, this trailer provides the durability and hauling capacity needed for skid steers, tractors, mini excavators, UTVs, and other heavy equipment.

Drive-over fenders maximize usable deck width, while the treated wood floor, heavy-duty ramps, rub rail, stake pockets, and D-ring tie-downs make loading and securing equipment quick and easy. The adjustable coupler, 10K drop-leg jack, LED lighting package, and powder-coated finish add convenience, safety, and long-lasting protection from the elements.

With an empty weight of approximately 3,725 lbs and a payload capacity exceeding 10,000 lbs, the Lamar H6022227 delivers the perfect combination of strength, versatility, and value. Whether you're hauling equipment to the jobsite, transporting machinery between properties, or moving recreational vehicles, this trailer is built to perform day after day.
